

Columbiana Vision Care

Columbiana Vision care remains open with regards to the Coronavirus (COVID-19). We are monitoring the situation on a daily basis and taking the necessary steps within our practice to keep our staff and patients safe. Our staff has been instructed to not report to work if they have any symptoms and to always remember personal hygiene including frequent hand washing. We kindly ask our patients who are not feeling well and are experiencing any of the following symptoms: Coughing, fever, sore throat or difficulty breathing, to kindly cancel their appointment. We plan to continue serving the ocular health and visual needs of Columbiana and surrounding communities and we are monitoring the instructions from the CDC, Surgeon General and the State of Ohio.

We have taken additional measures to ensure we have the safest environment for our patients. In addition to increasing our office disinfection procedure and personal staff hygiene, we will now begin shipping all contact lens orders directly to your home at no additional cost. We also ask that when coming for your appointment please limit those accompanying you when possible. Spectacle orders may also be shipped at no cost if you request, although some adjustments are often needed and these must be done in person.

We realize this is an ever changing situation and will do our best to follow the guidelines set forth while continuing to provide you the very best in eye care. Please do not hesitate to reach out with any questions or concerns. Stay healthy!

You may call us at (330) 482.2424 or email us at info@columbianavision.com.

Sincerely,

The Doctor and staff of Columbiana Vision Care
